

Every Day Is Christmas

by Maja Apolonia Rode, 2010

Every day is Christmas
all throughout the year,
And every day is Valentine's when love is here.
When the heart is open and the spirit bright,
Peace on earth, goodwill to all is born inside.

*We celebrate together,
with happy hearts we sing,
and every gift that opens —
reveals the love that Christmas brings.*

Santa and his helpers gather in the heart
where they create the gifts of love that we impart.
Gifts of love and laughter,
wonder, and delight.
The spirit of this holy day is shining bright!

Chorus

Deck the halls with holly,
bake a gingerbread,
make a man of snow, or cuddle up instead.
Mail a card or kiss with mistletoe above.
There's just so many ways to share the gifts of love.

Chorus

Caroling on Main Street,
singing round the tree —
oh, what fun it is to be in harmony!
Join the chorus as we celebrate the birth
of love in every one of us around the earth.

Chorus

May your days be merry
Christmases of white.
May all the world be showered in your Christmas
light.
Every day is Christmas all throughout the year,
and every day is Valentine's when love is here.
